## Maintenance Adds Value

**Subscribers to the Mastercam Maintenance Program receive the following:**

- Access to updates for the most recent Mastercam Software.
- Prioritized telephone and email support.
- 10% discount on all regular priced training provided by In-House Solutions.
- 10% off hourly service rates.
- Free 1 day Update Training per Mastercam user every year.\*

*\* Update training covers from the current Mastercam release to one previous major release.*

***The keys to maximizing your investment in machines and software, are the skills of your employees. Stay Informed:***

Mastercam Maintenance is a subscription service plan providing software upgrades as soon as they become available, prioritized technical support, maintenance-only perks, such as discounted training and hourly service work and much more.

Whether you are a designer, engineer, or business manager, you can benefit from Mastercam Maintenance. As a machinist or engineer, you have access to the latest versions of Mastercam before anyone else. As a business manager, you have access to the newest technology available and support to protect your investment and ensure continuous productivity improvements. Maintenance also lets you budget your update costs in advance.
